Email: lalsinfozone@gmail.com Web: www.lalsINFOZONE.com

Lals InfoZONE is a decade old IT and Career Consulting Institution. It is being managed by Professionals who are Technocrats in the fields of Training & Development, Information technology, Software Development, Computer Networking & Network Security, Building Construction and Business Development.

About US

Our Expertise and knowledge in various fields helped lot of organisations to develop their business, helped students improve their skills and achieve their goals. The important area of our services includes:

- i. **Training and Development:** **Talent EXPLOSION** , **Institute TO Industry BRIDGE** are our successful programs for college students. We do students Projects guidance, arranging Industrial Visits and Trainings, Career Planning, Higher education consulting and follow-up.
- ii. **IT and Computers:** Complete solution from development of systems, software, IT services to Change management, Deployment, Training, Support and Maintenance.
- iii. **Business Consulting:** System Analysis, Business Development solutions, Building Construction solutions, Software Solutions, Website development and maintenance and many more.

Our Unique Programs for College Students

a. **Talent EXPLOSION:**

We believe that each person has High Level of Certain Talents and they show their ability and potential if we guide them in a proper way and give them chance to show.

Talent Explosion

Talent EXPLOSION is an *unique program* of us in which we guide the students how to know their potentials and show them the ways to bring them out.

This program also involves **SKILLS** identification and **TRAINING**, **PERSONALITY DEVELOPMENT** etc.

b. **Institute TO Industry BRIDGE:**

There is a talk in Indian industry that *Students coming out of Institutes are not equipped with proper Talents and Knowledge to handle Today's industrial needs and problems.*

But in our view it is not so. Students are capable of handling today's industrial problems. The main

problem is the identification of **Industrial Requirements** and the **Ways** to accomplish the industrial needs.

Institute TO Industry Bridge

In our *Institute TO Industry Bridge* program we do:

- i) Highlight the present level of Technologies in various related Industries and Outline the Requirements in each Industry.
- ii) Bring out the Talents the students have and help them to choose the Industries which they feel have some knowledge and interest.
- iii) Show the students the ways to acquire the knowledge and skills required to meet the needs of the industries which they have chosen.
- iv) Train the student in particular field of interest and lacking skills so that they meet the required level of skills to face the day-to-day problems and challenges in that particular field.

This program also involves **Technical Training**, **Presentation Skills Development**, and mock **Interviews drills** etc.

Our Training Methodologies

- A. **Class Room Lectures and Training** for Final Year and Pre-Final year students on **Talent Explosion and Technical** subjects.
- B. **Seminar Programs** – Half day introductory seminar and Full & multiple days seminar on **Institute to Industry** matters.
- C. **Workshops** – on Presentation Skills Development, Technical (IT) skills development, English Proficiency Development etc.
- D. **Custom Sessions** – Based on specific requirement needed for the Students and or demanded by the institutions.
